The Madera and Pino vanity

tlconline.co.za

Although identical in design and construction, the difference between the Madera and Pino cabinets lies in the timber used for the bottom frame. The Madera features a frame crafted from durable Rubberwood, offering a premium feel and finish. The Pino, on the other hand, is built with pine, making it a more cost-effective option—without compromising on quality or style.

Discover the Beauty of Sustainable Elegance

At TLC Online, we take pride in our commitment to sustainability and quality. We utilise solid rubberwood for our countertops and other exquisite wood accents and trims.

Why choose rubberwood? It's not only a testament to our dedication to environmental responsibility but also an affordable choice for those who appreciate both beauty and value.

Experience the warmth and natural allure of rubberwood, knowing that your choice contributes to a greener, more sustainable future. With TLC Online, you can have both the best of nature and affordability in your space.

Please be aware that, owing to the inherent characteristics of wood, the stain colors may exhibit variations compared to the images displayed.
